

SPOORJITH MALEBALU

Full Stack Developer | Backend-Focused

spoorjith1@gmail.com | +91 7995295137 | LinkedIn | GitHub | Portfolio

Summary :

Full Stack Developer skilled in Django REST Framework, REST APIs and React.js. Hands on experience in building secure and responsive web applications with authentication, role-based access and API integration. Interested in backend development and building real-world projects.

Skills

Backend : Python, Django, Django REST Framework

Frontend : React.js, HTML, CSS, JavaScript, Bootstrap

Database : MySQL, PostgreSQL

Tools : Git, GitHub, VS Code, Postman

Projects

Bus Ticket Booking System

- Developed a role-based bus ticket booking system using Django REST Framework, JWT authentication and React.js.
- Implemented REST APIs and role-based dashboards for users, for bus operators and for admin.
- Features include searching buses by routes, price filtering, ticket booking, travel history and rating buses after journey.

E-Commerce Shopping Application

- developed a Shopping application using Python, Django REST Framework, simple_JWT and React.js.
- Built secure and responsive APIs using Django REST Framework for products, cart management, ordering and user dashboard.
- Authenticated user access for cart management, tracking the order and checking order history.

Private Chat Application

- Built a private chat app using Django REST Framework and React.js
- implemented friend requests, accepting requests, search filters, end-to-end private chat system, accessTokens & refreshTokens for authentication.
- REST APIs for messaging, chat functionality, users profile management.
- Designed responsive frontend pages with protected routes and API integration.

Social Media Application

- Built a dynamic social media application using Python, Django REST Framework and React.js.
 - Implemented RESTFul APIs and authentication for user feed, profile viewing, searching users, adding new posts and adding friends.
 - In this application a user can share posts with other users, view others profiles and search user by their username and can send friend requests to other users
-

Education

- Telangana university - Govt. Degree College, bodhan
BSc (Computer Science) 2022 - 2025 CGPA: **7.43**
-

Certificates

Python Full Stack Development - **Naresh IT**
Python Backend (DRF) Program - **Tech With Rathan**
